

# SMALL 50

Multi-purpose screw pump for conventional mortar and premixed materials

## Standard Equipment

- ✓ Single-phase 230V/50Hz motor – 1.5 kW
- ✓ Stainless steel hopper
- ✓ Arranged for vibrating grid
- ✓ Motor and stator DB 1.5 ECD
- ✓ Electric supply and control panel with inverter
- ✓ 20 m electric supply cable
- ✓ Pressure gauge unit
- ✓ Electric remote control with 16 m cable
- ✓ Arranged for pneumatic control
- ✓ Accessory box
- ✓ Safety devices according to the latest CE standards

## APPLICATIONS

- for spraying:
- Conventional mortar and premixed plasters
  - Premixed fibrous products
  - Waterproofing products
  - Smoothing and coloured products
  - Coatings with paints
  - For filling joints
  - For strengthening injections

✓ Electric panel with exclusive IMER inverter for top performance

✓ Easy to clean

✓ Motor with 3 levels of protection

Small 50 complete with optional vibrating grid and air diaphragm compressor

✓ Variable speed for a wide range of flow rates 0.8 to 14 l/min.

✓ The automatic run inversion device allows to discharge pressure inside the spray gun and hoses on stopping the machine
